

AN ORDINANCE TO PROVIDE A GRID SYSTEM AND HOUSE NUMBERS
FOR THE VILLAGE OF STETSONVILLE

The Village Board of the Village of Stetsonville, Wisconsin, do ordain as follows:

Section 1. Intent. The intent of this ordinance is to provide an accurate and orderly system for numbering all structures hereafter erected or placed within the village limits or brought within said limits by annexation or otherwise, and to provide a grid system to facilitate the same, and to provide for the future updating and maintenance of such system.

Section 2. Numbering and Grid System. A numbering and grid system is hereby established for all private and public structures now situated in the Village of Stetsonville or hereafter erected or placed within the village limits or brought within said limits by annexation or otherwise.

Section 3. Appropriate and legible numbers shall be affixed to each such structure at a location thereon at or near an entrance facing the public street on which the property (occupied by each such structure) abuts. The original numbers for all structures existing at the time of adoption of this ordinance are being provided by the Wisconsin Gas Company without charge to the village or property owners, for the convenience and improved record keeping of said utility and as a service to the residents of the village. Any numbers so installed but hereafter destroyed or lost shall be promptly replaced by the individual property owner.

Section 4. It shall be the responsibility of the owner of any property on which any structure is hereafter erected or placed, or which becomes a part of the Village of Stetsonville by annexation or otherwise, to procure, at his or her own expense, appropriate and legible numbers and to properly install the same on such structure.

Section 5. It shall be the duty of Street Sept. to periodically view the exterior of all structures within the village limits for the purpose of ascertaining compliance with this ordinance. Following the completion of each such inspection a list of structures not in compliance shall be provided to the village clerk who shall thereupon notify the owner thereof in writing, by mail, of such noncompliance, such notice to require the installation of correct structure numbers within 30 days following the mailing of such notice. If any such property owner fails to comply within such 30 day period, the Street Sept. shall procure the necessary numbers for the structure and shall install the same thereon in conformity with the requirements of this ordinance. The cost of such numbers plus a \$ 10.00 installation fee shall thereupon be inserted in the tax roll as a special charge or assessment against the property on which such installation is made, the same to be collected in the same manner as real estate taxes are collected.

6. This ordinance shall take effect on publication or posting thereof.

MEMORANDUM OF ACTION

The foregoing ordinance was adopted at a regular meeting of the Village Board held 7/3/84.

(Posted) 8/8 1984.
